- Wall suspension optional floor installation
- Axial fan stepless
- aluframe-tec-composite
- hot gas defrosting – plus D pro
- fully automatic operation
- operating hours counter

Extras

- electricity consumption meter
- 4 castors fitted, 2 lockable
- V2A Housing

- Sound-absorbing "Armstrong" version
- Aggregate sealing
- Power connection cable up to 30 m
- external humidity controller
- Dew point controller internal/external
- separate frost monitor
- Special paintwork according to RAL
- Special paintwork on request
- Tropical version (over 30° C)
- Condensate water pump 1.5 - 6.0 m delivery head
- Built-in fault indicator
- Data bus Remote monitoring
- Protection class IP 54

30% Energy saving!

Service providers, construction companies, equipment rental companies, commercial and private customers have been utilising the advantages of AIRDRY dehumidifiers for many years. Whether as a single appliance or for 'fleet use': AIRDRY appliances last longer than others and impress with their extreme value in daily use. Accidental damage is almost unheard of, so that the appliances remain operational even after long periods of use.

Their robustness and favourable power consumption, combined with simple handling and complete standard equipment, make them superior. Special requests can be catered for as extras.

DIGITAL CONTROL – illuminated display, 4 buttons for easy programming, display correction individually selectable, hysteresis (humidity deviation) adjustable, response time of less than 1 second, self-diagnosis every second, visual error messages on the display, pre-programmed, self-calibrating, green dehumidification indicator lamp, orange defrost indicator lamp, red warning lamp, water tank filled to maximum, hot gas automatic defrost – plus D pro.

16 litre class

150 cbm Volume

Trust the original, don't make any compromises if your priority is to be able to dry reliably and permanently.

Low power consumption with maximum water extraction !

STIELOW

Advantage and Technology made in Germany
